

NEW!

Huth Power Slotter

Makes tube slotting easy!

Works with any 3.5" Huth expanding cylinder on benders, benchtop expanders and other portable swagers and expanders.

Handles all tube diameters greater than 1.3" ID, up to 11 Gauge. Handles stainless steel easily.

Easy to set up! Easy to use!

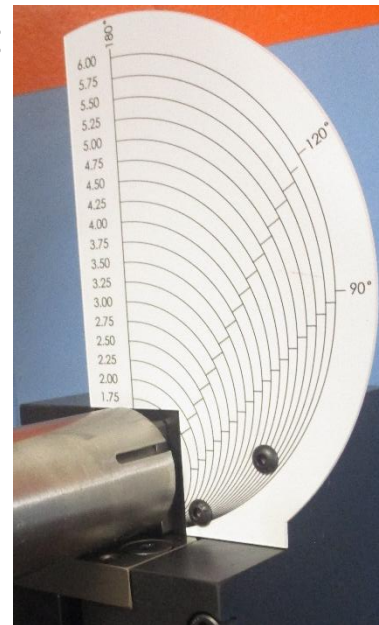

Works with BendPak benders!

Innovative slot spacing guide helps you space slots evenly.

Standard slot size is 1" x 1/8".

For different size slots, simply change out the punch and die to a custom tool made specially to your specs.

Custom slot shapes/sizes available
