HUTH BEN PEARSON

The Best Equipment, Tools and Service ... for Tube Fabricators Around the World

Since Gerry Huth developed the first automotive pipe bender in the 1950s, a lot has changed in the industry and with us. Today, people everywhere want to customize their cars and trucks, and find every possible performance advantage.

Our benders, expanders, swagers and tooling are allies that tube and pipe fabricators, in and out of automotive, have come to rely on. Huth, part of the Midas organization for decades, and Ben Pearson, who worked hand-in-hand with the leading exhaust shop chains, came together in 2008 to deliver the best in American made quality and innovation, supported by the highest level of customer service available anywhere.

Fabricators have found our equipment to be terrific for many other applications, from athletic equipment to fire systems to building frames to motorcycle and ATV parts to railing systems to satellite dish arms – the applications are almost endless!

Tube and pipe fabricators around the world recognize the value of Huth and Ben Pearson tooling and equipment. We work with many industry leaders ... our clientele rank among the top names in racing, fabrication and aerospace, experts in precision tube fabrication who know they can count on us.

Service and Quality Manufacturing

Made in the USA means we manufacture our products with American know-how, work ethic, innovation and values. Simply said, our products are the best.

Commitment to quality: We have a well-earned reputation for excellent quality and reliability in all our products, and we stand behind that reputation in our commitment to make it right for you.

Innovation, technical assistance and problem solving: We are committed to helping tube fabricators solve problems, do better work and be more successful. A real expert can help you any business day at 800-558-7808.

Commitment to service: It's about what you want, when you want it. We keep inventories of our most popular equipment and tools and can ship them to you NOW. Need custom machinery or tooling help? It may take a couple weeks, but we're on it!

HUTH BENDERS

Huth Tube and pipe benders

- The top of the line "ram-style" compression benders available anywhere.
- American made. Built by experienced masters.
- Rugged I-beam construction. ... Tough as hell. Lasts decades.

The HB-10: "The Full Package"

The best value in the market ... Includes 028 Tooling Package (see pg 4)!

- 5 HP motor gives 58,000 pounds of bending force, more than enough for 3 inch tubing
- Electrical knee control for hands-free operation
- Comes with comprehensive tooling package and instructional DVD
- Easy-To-Use Knee Pad Control
- Manual Depth-of-Bend Indicator
- Complete Manual Control
- 58,000 lbs of bending power More than enough for 3" tubing
- Flat Tool Tray

All Huth Benders give you:

- Built in Heavy-Duty Swager/Expander gives you complete end-finishing capabilities
 1" to 3" tubing on the swager end and 1" to 5½" tubing on the expander end
- Rugged I-Beam construction
- A High Speed Option for 25% faster bending
- Exclusive Safety-Guard Package
- Front swivel casters
- 220V, 60 Hz Operation. Single-Phase requires 30 amp service. 3-Phase requires 20 amp service. (Other voltages and 50Hz available.)
- Bending Die Retainers

The "Heavy Duty" Model 2600 ... for BIG JOBS.

- 7.5 HP motor for 85,000 pounds of unmatched bending power
- Heavy steel reinforced framing
- Heavy duty gates and bushings
- Reinforced bending gates and frame
- Large volume reservoir
- Elevated center of bend
- Push button controls
- Easy-to-use knee control for forward/reverse
- Automatic depth-of-bend selector
- Bends schedule/thick wall pipe with ease

Visit www.huthbenders.com for our complete line of quality benders!

HUTH BENDERS

Tooling sold separately

Huth's Remote Performance Bender (Model HRP-1620)

Operate bender away from the machine (when supporting a long tube)

Work more closely to the bend area. Simply move controls out of the way!

Built on the time-tested HB10/1600 platform

- 5 HP motor gives 58,000 pounds of bending force, more than enough for 3" tubing
- Heavy duty swager/expander for full end-finishing ability
- Expanding ability 1" to 5.5"
- Electrical knee control for hands-free operation

New pendant control station allows you to move while you work!

The 2806 "Production Work-Horse"

- Automatic depth of bend indicator makes repeatable bends easy
- More control options with both push button and knee controls
- Easy-To-Use Knee Pad Control or Foot Pedal Control
- Push Button Control
- Automatic Depth-of-Bend Selector
- Complete Manual Control
- High Speed Option available
- 58,000 lbs Of Bending Power More than enough for 3" tubing
- Heavy duty Hydraulic Cylinders
- Flat Tool Tray (2806 only)

... and the Sturdy 2008

Features listed at left (for 2806) plus:

- Swager Tray
- Auxiliary On/Off Switch
- Deluxe Tool Tray

Pipe Bending for Thousands of Applications

The value of portable, affordable pipe benders was quickly evident when Huth first introduced them. With a Huth bender, it is not necessary to keep a variety of pre-bent pipes in inventory. With a few sizes of straight tubing on hand, you can quickly bend pipes for thousands of applications.

Today's Huth Benders are used in many more automotive and non-automotive applications than Gerry Huth ever dreamed! You will find our benders in shops working to make the fastest cars in the neighborhood, and building specialty equipment for cars and sporting goods. You'll find them in a wide variety of welding and fabrication shops, as well as manufacturing operations and prototyping facilities. Huth products are used in production for such products as furniture, car ports, hand railings and many other applications that require pipe bending and end finishing.

Die Packages

Huth has combined the tooling you'll be reaching for most often into comprehensive, convenient tooling "die packages".

We make these an unbelievable value for you, and they combine the tooling for bending and end-finishing with the accessories you need to get the most from your bender.

Some even include Huth's exclusive Program Card Bending System (H980), containing all the information you need to bend pipes for thousands of applications (1928 Model A's through 2001).

HUTH TOOLING: CUSTOM TOOLING AND TOOL PACKAGES

Custom Tooling

All Huth tooling is machined to specific tolerances from solid steel. After it is machined, it is gas-carburized and oil quenched to a minimum hardness of 58 Rockwell "C" scale. We do not use cast iron for any of our tooling.

Huth will manufacture tooling to your specifications for sizes not listed in this schedule. We count among our many custom tooling customers leaders in metal fabrication in the automotive, aerospace and manufacturing industries.

Call for details. 800-558-7808.

Tool Packages

Many of our operator customers have a narrower need than a comprehensive die package, but still appreciate a deal on multiple tool sets. We have combined the tools that go together for some of the industry's most important applications into affordable and convenient tool packages to make life easier and more profitable for you!

HUTH TOOLING: BENDING DIES AND BACK SHOES

Bending Dies and Back Shoes

All Huth tooling is machined to specific tolerances from solid steel. After it is machined, it is gas-carburized and oil quenched to a minimum hardness of 58 Rockwell "C" scale. We do not use cast iron for any of our tooling. All Huth tooling is available from shelf stock. However, Huth will manufacture custom tooling to your specification for sizes not listed in this schedule.

EXPAND WITH HUTH!

End finishing expanders and swagers help you raise your game

Swage or Expand Tubing anywhere with Huth's line of portable and workbench expanders.

Mounted on easy wheeling carts or compact stands, they help you form slip joints, flares and flat flares, ball joints, deep swage expansions and reductions.

- Flexible, creative, affordable tube connecting
- **Easy to use!** Huth's Accu-Sizer™ system for quick, precise expanding every time.
- Sturdy, well thought out, with built-in tool trays for easy access to tooling.
- 25,000 to 49,000 lbs of expanding power.

Model 1673: Portable Expander- Swager Expands and Reduces Pipe Diameter

Model 1674: Portable Expander with Two Powerful Cylinders

1673 Powerful Swager/Expander Features:

Swage box allows reductions up to 3 inch and solid tool expansions.

- A powerful 5 HP motor, single-phase (30 amp), or 3-phase (20 amp)
- Runs on 220 volt, 60 Hz supply. 50 Hz and other voltages available
- The 3½" cylinder produces 25,000 lbs. of expanding power
- Expanding capacity from 1" to 5½"
- Features Huth's Accu-SizerTM automatic, preset expanding system for quick, precise expanding each and every time
- Adjustable Collar (41047) for expanding 1" to 31/2"
- Collet Holder for 1" to 2½" O.D. tubing
- Swaging capacity from 1" to 3"
- "See-through" safety guards for increased protection during all operations
- Front swivel caster w/brake
- 15' power cord with male and female receptacles

The 1674 Dual Head Expander Features:

Now with the powerful 5" cylinder you can expand tubing from 3" up to, and larger than 6" diameter, 3" deep (5" deep tooling also available).

- Powerful 5 HP motor, single-phase (30 amp), or 3-phase (20 amp)
- Runs on 220 volt, 60 Hz supply. 50 Hz and other voltages available
- The 3½" cylinder produces 25,000 lbs. of expanding power and the 5" cylinder produces 49,000 lbs. of expanding power
- Expanding capacity from 1" to 6" and greater
- Features Huth's Accu-Sizer™ automatic, preset expanding system for quick, precise expanding each and every time
- Front swivel caster w/brake
- 15' power cord with male and female receptacles
- Includes 41047 Accu Sizer adjustable collar for the 3-1/2" cylinder, and the 527 adjustable collar with the 528 collar extension for the 5" cylinder

Tooling sold separately

EXPAND WITH HUTH!

Bench-top and Portable Expanders quickly and easily size tube and pipe ends, anywhere! Auto stores, warehouses, fab shops and production settings.

1690 Bench Top Expander 1691 Portable Expander

- Compact design fits on your bench-top (12"x 20"x 24")
- 10 ft. power cord with male and female receptacles
- Compact 24"x 23"x 39" design on rugged cart for maximum portability
- 15 ft. power cord with male and female receptacles

1690 and 1691 Features

- Hands-free operation with foot pedal activation
- Create custom brackets with Rod Bracket Bender (Part 985)(optional)
- Standard expanding capacity from 1½" to 3½"
- Expanding capacity from 1" to 5½" with additional tooling
- Powerful 2 HP motor available in 110V, 30 Amp or 220V, 20 Amp. Motor runs on both 50Hz and 60Hz
- 25,000 lbs of expanding power
- Features Huth's Accu-Sizer™ automatic, preset expanding system for quick, precise expanding each and every time
- Built-in tool tray for easy access to tooling
- "See-through" safety guards for increased protection during all operations
- Includes: 572, 573 Arbors and 472, 474, 475, 476, 477 Segment Sets

1685S Mitey Mate Jr Expander... Now with 3" tooling included, gives you 17000 lbs of expanding force right in your hand. Now CE listed!

Small but powerful, the Mitey Mate Jr expander is ideal for making flares*, ball joints†, and slip connections wherever you need to work ... under a vehicle, in a work cell or on the bench.

- Set to operate at 3200 psi (shop air pressure between 80 and 120 psi maximum**)
- 1½" to 3" I.D. mufflers and pipes (3½"-4" capability with additional tooling)
- Comes with Huth's unique Accu-Sizer™ System for right-on expansions, job after job
- Expander weighs only 7 pounds
- All three pieces together weigh only 34 pounds
- Handy storage unit holds the expander, four segment sets and one of the two detachable arbor tips, is 9" high by 10½" square
- Power pedal is only 8" high, 10" long and 5" wide, and fits under the storage unit
- *Requires use of No. 440 flaring segment
- **Air regulator included in package
- †Requires use of ball joint segment tools

ACCESSORIES AND ADD ONS

Save Money! Bend your own Brackets. Rod Bracket Bender Part No. 985

You can quickly produce muffler hanger brackets from material as large as 1/2" dia. round or 1/4" x 1" flat.

Ready Rak II™ Part No. 91176

Large rack ... Ideal for 3" tooling

25¼" x 5"

17 Slots

7 Trays (5" Deep)

Shown with 825 Quick Disconnect Tooling (Optional)

Changing End-Finishing Tools is Fast and Simple with Quick Disconnect Kit Part No. 825

The holder (Part Number 818) threads into the swager cylinder shaft of the bender, and the 10 threaded shoulder studs (Part Number 823) screw into your end-finishing tools. Non-threaded adapter (Part Number 820) works with all non-threaded tooling.

Grommet Grabber Part No. 987

is designed to remove hanger brackets from their rubber mounting grommets with a squeeze of the handles

Exhaust Pipe Shapers

Repairs dented and damaged pipe ends or muffler inlets and outlets. Heat treated for durability.

For use on pipe up to 3" dia. part number 984.

For **2"** to **5"** dia. pipe part number **982**.

Muffler Stand Part No. 986

Safely supports exhaust components during installation, the Exhaust Support Stand measures 47" and extends to 79". The unit has an oversized support tray and rotates 360°. The spring loaded, quick-release extension mechanism is also self-locking.

Part No. 986.

(70 lb. Maximum Capacity)

A-Train Part No. 6006

Keeps tools at eye level for easy access, the A-Train has 8 large shelves (4 on each side) and can hold everything from radius dies to ball joint tools.

52" high, 38" long and 36" wide at the base. Made from heavy-duty angle iron, also has industrial strength swivel casters.

Header Flange Tooling

Huth now has arbors and segment sets to form shapes and sizes to match manifold flanges for your header construction. We have several sizes in stock and can custom build to your needs. This tooling will fit any of the Huth benders or expanders.

H594 Arbor, Flange 1" x 14 Thread (All Machines Except 1685)

H494 Arbor, Flange, 1685

H360 Segment, Flange Header 1-3/4 x .049, 4-V H361 Segment, Flange Header 1-3/4 x .049, 5.7

H362 Segment, Flange Header 1-7/8 x .049, C-7

H363 Segment, Flange Header 1-7/8 x .049, 6.1

MORE ACCESSORIES AND ADD ONS

Double the expanding set-up of your **Bender! Expander Option Kit** Part No. 92222/92225

The 2nd cylinder allows two different expanding systems always available and ready to use, reducing changeover time.

Kit 92222 allows for addition of expanding from 1" to 51/2" by 2" deep. Or choose to install the Rod Bracket Bender (#H985) on the new

cylinder and create hangers and brackets in seconds.

Kit 92225 allows for expanding from 3" to 5" by 3" deep. Arbor 574 included.

More Accurate End-Finishing with Huth's Accu-Sizer™. Now with metric and imperial measurements!

Part No. 1986 (3" Swager Cylinders) or Part No. 1990 (3 1/2" Swager Cylinders)

Huth's Accu-Sizer™ preset expanding system, standard on all new Huth Benders, is available as a retrofit kit for benders built before August of 1988, which have a 3" swager cylinder.

Accu-Sizer features:

•Accurate bull's-eye adjustments for precise expansions time after time

Consists of:

No. Description

572 Arbor 11/2" to 13/4"

573 Arbor 13/4" to 31/2"

472 Segment 11/2" to 13/4"

474 Segment 13/4" to 21/8"

475 Segment 21/8" to 21/2"

513 Snap Ring Nut

514 Snap Ring

515 Set Screw

522 Adjustable Collar

595 Gun Sight

98042 Sizing Decal

98043 Calibration Decal

97240 Machine Screw (2)

Installation, calibration instructions.

Model 1986 - for 3" Swager Cylinders Model 1990 - for 31/2" Swager Cylinders

Bring Huth Quality Tooling to Your "Other Brand" Bender. Now all Huth tooling (except collets) is adaptable to other brand benders. All Huth arbors, segments and swage tooling will attach to the 1" 14-thread shaft without modification. Huth back shoes and dies also mount on the swing gates without modification. Call 800-558-7808 for instructions and adapters for mounting Huth bending dies to the other brand sleds.

Top Tray Part No. 81013

Easy to snap-on, this tray helps you organize your tooling where it is easy to access, on top of your bender!

Tube Cutter #30 for 3" Part No. 835

Simple, easy to use tube cutter cuts any tube up to 3" diameter

Rotation Dial

Part No. 996 Clockwise Part No. 976cc Counter-clockwise

O Ring Kits 870 (Rubber) and 859 (Steel)

(10 ea, 50 total pieces)

(5 ea, 25 total pieces)

Tough, Close Bends Faster, Easier And **Better**

Simple, slip-in spacers nearly duplicate the action of the cutout gates by moving the back shoes and the pipe farther from the gates during bending operations.

1080 Half Shoe on Left, 1079 Full Shoe on Right

Space Makers help you contend with that second close bend with ease and without any die interference (provided bending radius does not exceed 4"). You can use these spacers with a half shoe and a full shoe in any tube diameter. Plus, you can substitute a three-quarter shoe for the half-shoe.

Huth Bender Training DVD

Designed to reduce training time for new technicians, this 42-minute bender training DVD includes clear visual instruction to reduce mistakes. Order Part Number 97305.

Huth's Program Cards

More than 7,500 strong...Huth's program cards enable even the beginning installer to start with a stick of tubing and end up with an OE-fit pipe. Model A through 2001.

Part Number 980 (electronic format). Includes catalog.

Copyright 2015. Huth Ben Pearson International LLC

BEN PEARSON BENDERS

The Power of Pearson

When Ben Pearson teamed up with Huth in 2008, two premier innovators in bending with a similar philosophy of "It's all about the customer" came together.

Ben Pearson benders brought innovative features that shop owners wanted, a longer stroke main cylinder, a 2nd expanding cylinder, and 180 degree bends on a 5" radius die and quick-change tooling. Now teamed with Huth, you get the best in engineering, innovation and customer service!

MC-59: The Bending Workhorse

With 2 separate cylinders for end finishing!

- Bend depth to 180° on a 5" radius
- Unique die design eliminates possibility of radius die locking behind back shoe
- Bending capability through 3"
- Quick-change dies
- Color-coded dies
- Spring loaded die carriage
- Knee control of ram die
- Energy efficient dual stage hydraulic pump
- Automatic depth-of-bend
- Automatic retraction of ram die
- Automatic motor cut-off
- 220 volt, 60 HZ operation
 - Single phase req. 30 amp service
 - Three phase req. 20 amp service
 - 50 cycle and other voltages available
- Heavy-duty 4 HP motor

180° Bend on a 5" radius

With the Ben Pearson pipe bender you'll get a perfect 180 ° bend on a 5" radius die (our 3" and 4" ram dies also make perfect bends possible even at maximum bend). What you won't get is a pipe that is crimped or collapsed. The reason for this is very simple-Ben Pearson's unique die construction eliminates the problem of the pipe locking on the die. This extra feature saves you time and money.

Longer Stroke Main Cylinder

We've added an extra 3" stroke to the main cylinder. You get an extra 6" of space between the edge of the ram die and the edges of the back shoes. You have more room to feed pipe through the machine, thus eliminating the need for cumbersome and time consuming pusher blocks.

The MC-59 Offers Two Separate End Finishing Systems

To make your job easier, faster and more efficient, the MC-59 offers two end-of-pipe systems as standard equipment. The segment expander is easier to operate close to the end of the pipe. Plus, the unique bull's eye gauge, with an accurate and complete O.D. and I.D. setting chart, ensures accurate connections and slip fits. The clamp-down swager system operates on a separate cylinder and gives you the flexibility to swage, flare, ball joint, reduce and flange. In fact, you name the job that needs to be done and this machine can do it.

Need Highest speed? Order the Ultimate In Bending Technology MC59 HI SPEED (MC-59HS). Twice the bending speed of conventional benders!

• Rugged 7-1/2 HP motor • Heavy-duty electrical and hydraulic system • Hydraulic oil cooler with extra capacity hydraulic reservoir Plus all the best features of the powerful MC59

BEN PEARSON BENDERS

3012 Fabricator's dream bending machine makes 360 degree bends!

Now tube fabricators have more bending capabilities than ever!

- Completely bend around dies on same centerline
- Uses BEN PEARSON TOOLING
- Easy-to—use manual knee pedal control
- Push button control
- Automatic depth-of-end selector
- 58,000 lbs of bending force more than enough for 3" tubing
- Agricultural main cylinder
- Deluxe tool tray
- Heavy duty swager/expander
- Rugged I-Beam construction
- Front swivel casters
- 220 volt, 60HZ operation
 - Single phase req. 30 amp service
 - Three phase req. 20 amp service
- High voltage and high speed options available
- Tooling Sold Separately

BP-08 Manual Bender

Manually operated bender using the knee control for bending

- I-Beam construction with the maintenance free guide plate
- Sleek design main frame provides maximum clearance for hard to bend tubes and pipes
- Uses double-ended cylinder for both solid and segmented end finishing
- Features Ben Pearson quick disconnect end finishing tooling
- 5-HP motor
- Manual operated knee pad
- Tooling Sold Separately

BPC-09 Complete Package

with BP-08 and Super 110 Tool Package

BP-11 Automatic or Manual

Depth of bend to make repeated bends

Features: Same Frame as BP-08

- Automatic and Manual depth-of-bend selector
- Easy to use knee pad control
- Push button control
- Auxiliary stop-start at swager/expander
- Deluxe die tray
- Sleek-designed main frame provides maximum clearance for hardto-bend pipes or when using bend data
- Designed to accommodate Ben Pearson bending dies and end-finishing tooling
- Uses a double-ended cylinder for both solid and segmented end finishing
- Easy toggle clamp design for clamping collets
- Features Ben Pearson quick-disconnect end-finishing tooling
- Powered by a 5-HP motor
- Tooling sold separately

Bending Dies and Back Shoes

Operator convenience is the name of the game in the fabrication and exhaust industries. The quicker the job, the more profit you can make. At Huth-Ben Pearson we know this, and that's why we designed our quick-change dies for maximum speed and versatility. You won't find any bolts, pins or pusher blocks. Its quick and easy with Ben Pearson tooling.

Bending Square

Bending square tubing is a favorite of metal fabricators due to its strength in construction. Ben Pearson benders handle this easily, with special square tooling.

BEN PEARSON TOOLING

End Finishing Expander Tooling

Create expansions, ball joints, flares and beads with ease. All Ben Pearson tooling is machined to specific tolerances from solid steel. After it is machined, it is gas-carburized and oil quenched to a minimum hardness specified to the tool type. We do not use cast iron for any of our tooling. All Huth-Ben Pearson tooling is available from shelf stock.

ACCESSORIES AND ADD ONS

Rod Bracket Bender Attachment (Except MC-59) Part No. 75985

Bending Card Data DVD with Catalog **Part No. 980**

Swage Adaptor: Quick Disconnect Part No. 61247

Rotation Dial Part No. 60100

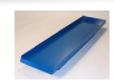

1685S Mitey Mate Jr Expander... Now with 3" tooling included, gives you 17000 lbs of expanding force right in your hand. Now CE listed!

Small but powerful, the Mitey Mate Jr expander is ideal for making flares*, ball joints†, and slip connections wherever you need to work ... under a vehicle, in a work cell or on the bench.

- Set to operate at 3200 psi (shop air pressure between 80 and 120 psi maximum**)
- 1½" to 3" I.D. mufflers and pipes (3½"-4" capability with additional
- Comes with Huth's unique Accu-Sizer™ System for right-on expansions, job after job
- Expander weighs only 7 pounds
- All three pieces together weigh only 34 pounds
- Handy storage unit holds the expander, four segment sets and one of the two detachable arbor tips, is 9" high by 101/2" square
- Power pedal is only 8" high, 10" long and 5" wide, and fits under the storage unit
- *Requires use of No. 440 flaring segment
- **Air regulator included in package
- †Requires use of ball joint segment tools

Tooling Tray for MC-59 Part No. 62157

Top Tray for BPC-09/BP-08 Part No. 81013

Easy to snap-on, this tray helps you organize your tooling where it is easy to access, on top of your bender!

Muffler Stand Part No. 986

(70 lb. Maximum Capacity) Safely supports exhaust components during installation. Measures 47" and extends to 79". The unit has an oversized support tray and rotates 360°, has self-locking spring loaded, quick-release extension mechanism.

Exhaust Pipe Shapers

Repairs dented and damaged pipe ends or muffler inlets and outlets. Heat treated for durability.

For 2" to 5" dia. pipe Part No. 982.

A-Train Utility Tool Holder Cart Part No. 6006

52" high, 38" long and 36" wide at the base. Made from heavy-duty angle iron, also has industrial strength swivel casters.
