

Make sheet metal holes & dimples

easy! Punch and Dimple Die Arbor Kit (#9000)

Our arbors + your punch & dimple dies make the Mitey Mate Jr (#1685S) a powerful sheet metal punch!

Make holes easily!

New!

Makes dimples to increase strength and rigidity ... with ease!

Punch and dimple die tooling is common in shops for holes in sheet metal, or to add strength-enhancing dimples.

Now these operations can be done quickly and powerfully with new arbors for our hand held expander!

Powered by shop air!
